Forecast for Sunday 24 Dec 2023

Weather: The rain will continue to ease overnight, turning showery towards morning. A cloudy day with the occasional bright spell, particularly over eastern ranges. Scattered showers through much of the day, easing across eastern ranges towards the evening.

Chance of cloud-free hill tops above 800m: 30%

Low cloud and visibility: Broken cloud 400-600m will fall to lower slopes in showers, snow on higher ground. The visibility will be poor in showers but very poor in snow and cloud.

Met Office Aberdeen Meteorologist's View

Very strong winds to low levels will make walking difficult, the visibility will be poor in cloud and particularly in snow above 700m.

Forecast for Monday 25 Dec 2023

Weather: A mainly dry day with bright spells and the chance of an occasional shower. Overcast skies and showers spread over southern ranges towards midday, merging into longer periods of rain for a time in the early afternoon and falling as snow above 300-400m. The rain and showers clear south again by the evening.

Maximum wind: West 30-35mph gust 50mph.

Chance of cloud-free hill tops above 800m: 60% falling 30% over southern ranges in the afternoon.

Low cloud and visibility: Broken cloud 900-1100m becomes extensive and lowers to 700-800m over southern ranges for a time from the early afternoon. The visibility will be mostly good, falling poor in showers, very poor in snow.

Temperature: **Glens:** Plus 1 Celsius rising plus 4 Celsius.
At 800m: minus 2 Celsius
Freezing level: 600m
